

6-Point Restraint

Severe Duty Retractor

Keeps out mud, dirt, sand and water so the seat belt continues to do its job and protect the rider

Shoulder Pad with PVC branding patch

NEW Race Web

36% reduction in adjustment force with dirty webbing; 2,000 lbs stronger; pre-dyed yarn; soft rolled edge; smooth touch

Rubber Chest Clip

Six Points of Protection - One Point of Connection
Easy one-click ingress and egress

From OW to WOW®

With six points of protection and one point of connection, IMMI's Click6 retractable harness stands out. Unlike other UTV harnesses, Click6 doesn't hold you hostage against the seat. No more unbuckling to reach something off the dash or to look out your door to miss an obstacle below. Click6 gives you the freedom to move, while keeping you comfortably, and safely, buckled up.

- Provides six points of protection.
- Lack of crotch strap eliminates uncomfortable cinching.
- Retractable harness provides more comfort, which can increase belt usage.
- CAPE® Tested for safety and comfort.

Severe Duty Retractor

In a side-by-side comparison with competitor retractors, the **IMMI Severe Duty Retractor** locks out mud, dirt, and water. Not only does it hold up against physical elements, it withstands exposure to intense heat and cold.

- 100% North America manufactured and sourced
- FMVSS 302, SAE J386, SAE J2292, and ISO 6683 compliant
- Weight: 832 g
- Robust dimensions: 105 mm x 100 mm x 72 mm
- Spools 65”* webbing for a more comfortable ride

When you see  on the outside, you can trust IMMI is on the inside.

Want a little more information about the Severe Duty Retractor?

Testing

When it comes to enhancing the protection of off-road and UTV riders, no test house goes the distance like CAPE. We drive safety.

Until CAPE®, the Center for Advanced Product Evaluation, stepped in, very little crash testing had been done for the UTV market. They set out to change that and have succeeded. CAPE has crashed, smashed, and rolled a number of UTVs to test everything from vehicle integrity to harness and seat belt safety. Whether you use a UTV to play hard or work hard, CAPE is working to make them safer.
