

Premier Marine Tie-Down Solution

Rod Hold-Down has a coated strap that grips the rods and resists hook penetration

Self-Retracting Strap extends 24" and securely locks into position on the deck

Buckle Bottom allows the RodBuckle strap to lock firmly in place

Designed by fishermen for fishermen.

RodBuckle Retractable Rod Hold-Down System by IMMI® is the most attractive and functional rod hold-down on the market for deck style fishing boats. The self-retracting polyester strap extends a full 24 inches and securely locks into position on the deck. The PVC extrusion coated strap grips the rods and resists hook penetration. When not in use, it neatly retracts out of the way. Easy installation with mounting template included.
